Japanese	Elementary (JLPT N4)	Basic conversational proficiency

| Professional Project Experience 仕事としての経験

Agency CMS Website | (Next.js, Vitest, PostgreSQL, Drizzle, JWT) | Live
A Japanese CMS website built for B-JET using Next.js. Optimized for SEO, Core Web Vitals, and responsive design with a custom content management workflow for Blog and News creation. Solo development, worked closely with the content editor.
RevSplitPay | (Next.js, Convex, Zustand, Shadcn/UI, Clerk Auth, Stripe Connect) | Live
Office Sales tool for automated commission splitting, real-time dashboards, and multi-stakeholder onboarding workflows with Stripe Connect integration. Led the development of the SaaS product alongside a fellow developer and designer.
EasyCommerce | (WordPress, PHP, React, JavaScript) | Live
An AI-powered WordPress Ecommerce Plugin revolutionizing ecommerce store building experience for everyone. Worked on the product site and contributed to development of the plugin under mentorship of senior developers.

| Academic or Personal Project Experience 学習のための経験

DataSense AI | (Nextjs, TypeScript, Recharts, AI/ML, RAG) | Live | GitHub | Preview
DataSense is a privacy-first, browser-based data analysis tool. Upload a CSV, Excel file, or SQLite database — ask questions in plain English — get interactive charts, tables and SQL code.
Ecommerce App | (Nextjs, TypeScript, Prisma, Postgres, Stripe, Algolia) | Live | GitHub
A Japanese pop-culture e-commerce store selling manga, light novels, and merchandise — with guest checkout, Algolia search, and admin CMS.
Headless CMS Blog | (Next.js, WordPress, GraphQL) | Live | GitHub
A blog website utilizing Next.js frontend and WordPress Backend for content management. Utilizes GraphQL API for data fetching. Connects with Yoast SEO to dynamically generate metadata.
